Dr. Mukesh Jha, Ph.D.

Founder & Managing Director

Dr. Mukesh Jha is a visionary entrepreneur and accomplished professional with extensive experience in the corporate sector. After building a successful career working with leading organizations, he established his own company with the objective of delivering innovative, reliable, and technology-driven solutions across infrastructure, smart city, surveillance, and digital transformation projects.

Under his leadership, the company has grown into a trusted partner for both government and private sector organizations. Leveraging his strong industry relationships and deep understanding of project execution, Dr. Jha has successfully collaborated with renowned corporate groups and public sector clients.

The organization has been associated with prestigious clients and projects involving leading enterprises such as Adani Group and Ambuja Cement, as well as various departments and agencies of the Government of West Bengal. His commitment to quality, innovation, and customer satisfaction continues to drive the company's growth and reputation in the industry.

Dr. Jha's strategic vision, technical expertise, and dedication to excellence have positioned the company as a reliable partner for delivering sustainable and future-ready solutions.

Company Overview

OM Smart Solutions is a leading technology and infrastructure solutions provider specializing in Smart City projects, Intelligent Transportation Systems, Security Solutions, Data Centers, Fiber Infrastructure, Building Construction, and Advanced AI-driven technologies.

We deliver end-to-end solutions covering design, engineering, implementation, integration, operation, and maintenance for government, enterprise, and urban development projects.

Our mission is to create safer, smarter, and more sustainable cities through innovation, technology, and engineering excellence.

Our Business Vertical

- ❑ Smart City Solutions
- ❑ Intelligent Traffic Management Systems (ITMS)
- ❑ Security & Surveillance Solutions
- ❑ Data Centre & Ict Infrastructure
- ❑ Smart Parking Solutions
- ❑ Construction & Infrastructure Development
- ❑ Drone Solutions
- ❑ Command & Control Center

Command & Control Centres

Our Integrated Command & Control Centers (ICCC) provide centralized monitoring and management for transportation, utilities, public safety, emergency services, and city operations.

Key Features

- ☐ Large Video Wall Displays
- ☐ Centralized Monitoring
- ☐ Real-Time Analytics
- ☐ Incident Management
- ☐ Emergency Response Coordination
- ☐ Data Visualization Dashboards
- ☐ Decision Support Systems

Benefits

- ☐ Faster Decision Making
- ☐ Enhanced Operational Efficiency
- ☐ Improved Public Safety
- ☐ Centralized Control
- ☐ Better Resource Utilization

Intelligent Traffic Management System (ITMS)

Our Intelligent Traffic Management System improves mobility, road safety, and traffic efficiency through advanced automation and analytics.

Smart Parking Management

Our Smart Parking Solution enables seamless monitoring and management of parking facilities through sensors, cloud platforms, and mobile applications.

Features

- ❑ Real - Time Space Availability
- ❑ Automated Entry & Exit
- ❑ Mobile App Integration
- ❑ Payment Management
- ❑ Occupancy Monitoring
- ❑ Analytics & Reporting

Benefits

- ❑ Reduced Parking Congestion
- ❑ Improved User Experience
- ❑ Increased Revenue Collection
- ❑ Better Resource Utilization

Adaptive Traffic Control System (ATCS)

OM ATCS optimizes traffic signals dynamically based on real-time traffic conditions.

Features

- ❑ Adaptive Signal Timing
- ❑ Multi-Modal Traffic Management
- ❑ Pedestrian Prioritization
- ❑ Emergency Vehicle Priority
- ❑ Predictive Analytics
- ❑ Traffic Anomaly Detection

Benefits

- ❑ Reduced Travel Time
- ❑ Lower Fuel Consumption
- ❑ Reduced Emissions
- ❑ Improved Safety
- ❑ Better Urban Mobility

Core Functionalities

- ❑ Centralized Traffic Control Room
- ❑ Automated Violation Detection
- ❑ Real-Time Traffic Monitoring
- ❑ Traffic Congestion Alerts
- ❑ Vehicle Classification
- ❑ NIC Integration
- ❑ Traffic Analytics Dashboard
- ❑ Vehicle Path Tracking

Benefits

- ❑ Reduced Traffic Congestion
- ❑ Improved Road Safety
- ❑ Faster Incident Response
- ❑ Better Traffic Flow
- ❑ Data-Driven Traffic Planning

AI Enabled Video Analytics

Transform surveillance footage into actionable intelligence through advanced AI technologies.

Capabilities

- ☐ ANPR
- ☐ RLVD
- ☐ Face Detection
- ☐ Intrusion Detection
- ☐ Crowd Monitoring
- ☐ Object Tracking
- ☐ Traffic Analytics
- ☐ Behavioral Analytics

Advantages

- ☐ Instant Insights
- ☐ High Accuracy
- ☐ Real-Time Alerts
- ☐ Regulatory Compliance
- ☐ Enhanced Security

Video Management System (VMS)

Our Video Management System provides secure storage, monitoring, retrieval, and management of video data across multiple locations.

OM Energy – Clean Energy Solutions

Powering India's Sustainable Future

OM Energy delivers customized solar power solutions for commercial, industrial, institutional, and government applications. Our mission is to help organizations reduce electricity costs, improve energy security, and achieve sustainability goals through reliable solar energy systems.

Clean Energy Through Smart Solar Solutions

❑ Purchase Solar Electricity ❑ Starting from ₹5 per unit

Solar power is now one of the most affordable sources of electricity in India. Businesses can significantly reduce energy expenses while contributing to a cleaner environment through our customized solar solutions.

Clean Energy. Lower Costs. Sustainable Growth.

Features

❑ Centralized Video Monitoring ❑ Multi-Site Integration ❑ Cloud & On-Premise Deployment
❑ Secure Data Storage ❑ Live Monitoring ❑ Event-Based Recording

Our Solar Services

❑ Rooftop Solar Power Plants ❑ Ground-Mounted Solar Projects ❑ Commercial & Industrial Solar Solutions
❑ Solar EPC Services ❑ Solar O&M (Operation & Maintenance) ❑ Net Metering Assistance
❑ Energy Audits & Optimization ❑ Solar Carports and Smart Energy Systems

Partner With OM Energy

OM Energy combines technical expertise, quality equipment, and customized project execution to deliver maximum energy savings and long-term value for every client.

OM Engineering & Constructions

We are one of the advanced and modern Façade construction firm. Our team has ten to twelve years of credible experience in the locations known as Tier 1 cities like Mumbai, NCR {Delhi, Noida, Gurgaon and Faridabad} and Rajasthan.

Some other upcoming places in terms of the real estate business where we have delivered to the best of our abilities would be like – Goa, Jamshedpur, Allahabad etc.

Our ongoing focus is to serve our customer with utmost professionalism and with enhanced technical expertise and quality products at all times. ☒ Above all we are also better known by our punctuality & time bound completion of job.

Key Clients & Associations

Government & Public Sector

- ☐ TCIL (Telecommunications Consultants India Limited)
- ☐ BEL (Bharat Electronics Limited)
- ☐ BECIL (Broadcast Engineering Consultants India Limited)
- ☐ BSNL (Bharat Sanchar Nigam Limited)
- ☐ RailTel Corporation of India Limited
- ☐ IRCTC
- ☐ Government of West Bengal
- ☐ Government of India
- ☐ Government Banks & Financial Institutions
- ☐ Various Urban Local Bodies and Municipal Corporations
- ☐ Google Technology Ecosystem
- ☐ PS GROUP
- ☐ Shristi Infrastructure Development Limited
- ☐ UNITECH
- ☐ ADANI
- ☐ AMBUJA
